

“WHO’S DOING WHAT”

TERRI L ANGOVE - CHEVRON I retired in April and took a leap of faith to move across country (CA to FL) to begin retirement life in "On Top of the World" 55+ retirement community in Ocala, FL. The 5-day drive across country with our disabled daughter went seamlessly and we are now settled in our beautiful new home. I haven't had time to grieve my Chevron job that I loved because we are too busy joining clubs, going to events of all kinds and making new friends. The community embraces our daughter too, so we feel at home here. We love the thunderstorms!

FRED BATES - CHEVRON Currently a volunteer with AARP as a Tax Aide, (providing free tax preparation assistance for people in our community), and as a speaker on many subjects, including Financial Security, Investment Fraud, Social Security and Medicare. I am also a pole worker for Seminole County here in Florida and a Life Master in Bridge, competing in tournaments throughout the U.S.

LOUIS C BAUMAN - CHEVRON Still having fun in Idaho. Retired in October 1992 out of 225 Bush St. How time flies.

JOHN CALZONETTI - CHEVRON I'm a new retiree from Chevron Shipping, departed downtown Houston and the end of April and settling into our home in Sarasota, FL. Spent the first few weeks sorting through Medicare options, so glad to have that behind me. Next on my list is to explore joining the Coast Guard Auxiliary. Three flotillas are within 10 miles of my house so I intend to visit each at their monthly meeting. Please reach out if you would like to share feedback or comments on the CG Auxiliary.
